Key Steps for Returning:

Empties Return for Deposit	Defective Containers Leakers/Damaged Cylinders
<ol style="list-style-type: none"> 1. Complete the RA* form and the BOL for empty cylinder returns, email them to FCReturns-CSR@usa.dupont.com or fax to 302-355-4167 to initiate the return process. 2. Within 2 business days TONA will call the shipper and provide the RA #, carrier name and any other required details. 3. Enter the RA# and Pro # on the RA form and the BOL. 4. Tag each pallet, ton or ½ ton with appropriate Empty Cylinder Return tag (H-43891) - write RA # on tag. 5. Ship to DuPont. Attach a copy of RA and BOL to shipment as the packing list and give a copy of BOL to carrier. 	<ol style="list-style-type: none"> 1. Complete the RA* form and the BOL for empty cylinder returns, email them to FCReturns-CSR@usa.dupont.com or fax to 302-355-4167 to initiate the return process. 2. Within 2 business days TONA will call the shipper and provide the RA #, carrier name and any other required details. 3. Enter the RA# and Pro # on the RA form and the BOL. 4. Tag each cylinder with Return for Inspection Tags (H-43896) - write RA # on tag. 5. Ship to DuPont. Attach a copy of RA and BOL to shipment as the packing list and give a copy of BOL to carrier.

Empty Cylinder Returns

- Palletize horizontally for a maximum of 12 cylinders (96-lb. and 125-lb.) per pallet. Use scalloped separators for 3 layers of 4 cylinders each. Double-band the cylinders to the pallet at both the front and the rear of each pallet.
- Specialty containers e.g., 10 or 24-lb. Water capacity, should be consolidated and returned on a separate pallet (no min.). These should be shipped with other return containers.
- Half-tons must be shipped upright, and ton tanks must be shipped horizontally with valve protection cover in place, parallel to the end of the truck using required blocking and bracing practices as outlined in DOT 49CFR, Part 177. **Assure valves are closed.**

Defective (Leakers/Damaged) and Full Product Returns

- Flammable material (Dymel® A, Dymel® 152A, and Formacel® Z-2) must be palletized and banded vertically for a maximum of 16 cylinders (70-lb. and 95-lb.) per pallet. Use scalloped separators to secure cylinders in vertical position. Consolidate and ship with return containers. If cylinder is totally empty, it's acceptable to ship horizontally (see guidelines above).
